

Scheduled team meeting

Information:

Location: PC-HALL

Date : 1 28.02.2023

Starting time : 16:45

End time : 17:25

Duration : 40 minutes

Attendees : Tudor Coman, Chris Obis, Stefan Secuiu, Tymon Jastrzemski, Andrei Ionita, Marcin Liberadzki

Agenda items:

[Agenda item 1] Opening – 4:45 - no remarks concerning the agenda.

[Agenda item 2] Current state of the app – 4:47 - We showcased how the app is functioning at the moment

Database showcase : 4:50

- Issue : table duplication - 4:51 – An issue arose where some tables were duplicated in the database. These duplicates did not however contain any data, so it was possible to manually drop them.

UI showcase 4:53

- Demonstration 4:54 : checking for a valid address, connecting and showcasing a board,

[Agenda item 3] Analysing the remaining application requirements - checking the progress of our application 4:55, basic requirements:

-delete lists

-crud tasks (Tymon is handling this)

-drag and drop

We discussed the database hosting 4:59

Discussion about security and password protection – whether a password protects a board or multiple. We settled on having a password per board 5:01

[Agenda item 4] Heuristic Usability Evaluation discussion :

- we discussed the procedure for the HEA - 5:02
- we discussed the prototype we have to deliver
- we discussed splitting the work for the review and settled on sharing the workload between all members

Discussed leftover work, more specifically better test coverage, and issues regarding multiple boards 5:05

[Agenda item 5] Received feedback from TA

- All requirements from the backlog should be found as an issue on gitlab 5:09
- Issues should be more detailed and tracked, more metrics should be kept and documented : time tracking, 5:12
- More MR interaction : code reviews 5:13
- Gitlab code percentage analysis and feedback on previous work 5:19
- Deadlines for code and presentation, as well as the procedure for the end of the course, are discussed 5:22
- Next meeting scheduled 5:23

Meeting end 5:24
